

Pediatric Psychiatry

at the Pediatric Specialty Center of Saint Barnabas

The Division of Pediatric Psychiatry at Saint Barnabas Medical Center

provides parents and families the clinical expertise of a Child and Adolescent Psychiatrist trained to evaluate, diagnose and treat children and adolescents dealing with emotional difficulties, learning and behavior problems and mental disorders. The Child Psychiatrist works in tandem with school-based Child Study Teams and consults with each child's family physician to develop an individualized comprehensive treatment plan.

Mark Paul Faber, M.D.

Director of the Division of Pediatric Psychiatry at Saint Barnabas Medical Center

Dr. Faber completed a fellowship in Child Psychiatry/Sleep Disorders at UMDNJ/Robert Wood Johnson and performed his residency in general psychiatry at Yale Medical School Affiliates. He attended medical school at Ross University. He received a masters in Health Education and a bachelor of science degree, *summa cum laude*, from the University of Maryland.

He was included in the 2003 "Top Doctors" list featured in New Jersey Monthly magazine and was named to the 2001-2007 Castle Connolly Guide to America's Top Doctors. He was also named Health Professional of the Year for 2001 by The New Jersey Center for Outreach and Services for the Autism Community (COSAC).

Dr. Faber, whose specialties include Attention Deficit Hyperactivity Disorder, Depression and Anxiety, is board-certified in adult and child/adolescent psychiatry.
